Classes and summons/pets?

Question

So I'm new to the game and know Tamer gets Heilang, and you can basically have him out all the time and he can follow you around and attack things. Do any of the other classes have a summon that can do that? I saw Nova had some guard things, are they just a skill you use, or can they run around and do stuff like Heilang. Is Tamer the only class with a summon that's its own entity?

Tamer summons a permanent pet she can ride as well. Wizard and Witch summon permanent elementals, two each. Nova summons temporary undead minions and an undead dragon king. Corsair can summon her otter pirate crew temporarily, as well as whales and fish. Striker can summon clones of himself, and Mystic a water dragon.

Wizard and witch have their elemental golems. Each of them has 2 golems. Wizard has the Fire and Water golems, while Witch has the Earth and the Lightning.

more damage when the guards are out. That's about it. There are a few commands for the guards but not very micro like pet classes in other games.

Nova also summons axian, kind of a dragon half-bred with a bat that flies and appears around when you attack. It also attacks from range or can be sent to attack on the spot.

It's interesting how it attacks automatically if your hp lowers under 40% and then it stays in rage mode for a whole minute. The guards automatically spawn and attack when you are in blocking stance. Mostly there are skills that mix your attacks with pets skills, both guards and axian's

Yes, Tamer is the only class that has a pet that basically do things (If commanded) on it's own. Come to Tamer world, be free of meta and every single thing else, be hated because of your pet 🤔

I'm playing Tamer and enjoying it, just disappointed no other classes have permanent pets that are similar.
