Recommend tamer?

Question

I have been looking a lot at the different classes and tamer caught my eye a little but when I look at her online it seems people say she's really weak or almost unplayable.

So I wanted to ask is it just cuz her skill ceiling is high or is she just overall pretty bad? I mostly play pve and a little small scale pvp at some points. I don't mind the class being hard as long as it gets rewarded would you guys recommend tamer?

classes that people say are unplayable, it's because you need more effort to do what a class considered playable does. You'll be able to do almost anything with her, but you'll put in more effort. In a grind game this is not attractive to anyone. All I can say is that if you fell in love with her, just play the game, you're not going to be happy grinding with a character you don't like anyway

pvp she has been gutted by the devs.

This is what most bdo players are talking about when a class is good or bad. If it shines in money per hour and large-scale pvp. This is what most end-game players are focused on. They need that 1 more ap for large-scale pvp. If you like going at your own pace and being more solo focused. Dabbling in a bit of open world 1v1s and maybe some aos. Then tamer is amazing.

Imo, you want to hunt for your core class. One that you are willing to invest a lot of time into. If you hate the way the class plays, even though it is s tier, you will 100% quit the game and never reach end-game. The only way you will know this is just to dive in and start playing. Ya do not need reddit approval over a class. Fuck what us nerds say is good or bad. You do you.

If you're okay with getting 10-20% less loot per hour spent grinding in PVE compared to top PVE classes then go ahead.

The pvp is fine.

Tamer was my tag for a while cus i think the class is fun but i was getting such bad silver/hr i couldn't enjoy it anymore cus it felt like i was just handicapping myself hard.

I pull 19-20k with lvl2 loot scroll on hexe with succ tamer which is not top tier, but very good. Really good tamers can do even more. And for PvP in 1v1 and small scale succ and awa are one of the best 1v1 classes out there. Both not easy and awa is a lot harder to play from what I heard. Until now I only played succ. Tons of fun.

She's very good in pvp if you know what you're doing but pve not so great you can use her as main for all the content and create an alt for grinding the silver faster and gear her that's what I do.

If you want a class that can do a bit of everything Tamer is a solid choice.

Awakening in particular has a lot of burst mobility and Legendary beast dance has no damage fall off so you can (and will) spam it. Especially turtle dance since it is the spamable aoe move to weave.

To answer yea she's pretty hard to master. Though really fun to play since there are many aspects in her kit to learn.

Usually it goes.

Learn movement.

Learn skill rotations/what moves to use whenever

Learn protections with moves

Learn main hand moves/weapon changes

Learn Pet mechanics outside of buffs (setups into pet attacks that can aoe CC or stealth CC)

The flying arts for style points.

Personally I learned up to lvl 3 during season which is the ez pz stuff.
