Perfect World! It is difficult to find a good audio and sub for this donghua

[Question?](#)

I dropped this series long time ago around 60th episode because of the bad audio and sub. Audio, especially, is terrible. I want to watch it again since it is being high recommended. Where do you all watch this donghua ?

Did they recently change all their subs for PW? Last time i checked, their subs were horrible MTL.

Stopped watching this too due to horrible subs. HuangSubs seems decent but they have only done 1-26, 131-latest. I'll probably just wait a couple of years maybe HuangSubs have released the rest 😊

I think that's the best course of action. Maybe I can start from the scratch once all the episodes has good subs. I don't remember the story anymore

check out animekhor.org, myanimelive, nyaa. also you can check out official website of wetv to watch there with good subs.

No it's not. You just don't read posts.

Nyaa, they have high quality from Huangs and after episode 130 there is also decent subs/video.

Everybody keep spamming myanime and animekhor garbage, try animexyn and DOWNLOAD the episode, don't watch it on streams, streams quality is way lower than downloaded episode.

Then come back and thank me.
