Where do I find Graphics Card's serial number?

Help (GPU)

Hello, I recently bought a Sapphire Pulse 5700XT and I want to register it to AMD's [Raise the Game](#) so that I can claim my free Borderlands 3. I need the serial number to register my card. Can I find the serial number on the box or is it on the actual graphics card? Thank you

I think it's on the bar code of your graphics card

I can't find it on the box. One number has PN before it, not SN. The other number is the SKU#
