What are the strongest gels for 4c hair?

Need Advice

I need something EXTREMELY strong. Even stronger than wetline xtreme gel because it's not enough.

The Doux Bee Girl Honey Curl Custard. Lots of people complain about the hold being so strong lol

That's perfect. I read all the comments, but this is the one I'll be going for. Thanks

For my edges, Got2beglue. But I wouldn't apply that on my whole head. I apply wet line to smooth big parts of my hair but I agree the hold is not extreme.

I find it is only a medium hold tho? But I do love it and use for medium definition. If OP is looking for firm hold I would recommend the Mielle pomegranate gel. Only downside is it can be a bit crunchy.

You could try Trepadora's Bamboo Curling Glaze on top of uncle funky's daughter. I personally like the combo as it keeps my curls in order
